

# ZChek - 9D Red

ZChek 9D Red is a red colored free flowing powder used in Dry Method Magnetic Particle Inspection. Formulated with selected particle size and shape, it locates surface and slightly subsurface discontinuities in ferrous materials.

## Features / Benefits

- Free Flowing: Improved particle mobility and less back ground.
- Sharp Red: Good Contrast against natural metal color.

## Applications

Detect Discontinuities in welds, large forgings and castings.

## Typical Properties

Form	Free flowing powder
Color	Dark red
Average Particle size	70 -90 microns
SAE Sensitivity	8
Upper temperature limit	315°C

Packaging: Available in 4 Kgs pail.
