

## VP-SERIES

### Portable MPI Power Source for Prod and CableWrap Method:

The VP-Series portable MPI source ranging from 1500 amps to 3000 amps.

Model Type: ☐ VP-1500

#### Description:

Mobile Power Source of maximum current output AC/HWDC (Maximum output to be measured with (Standard Mag Cables 120Sqmm X 5Mtrs X 2 Nos with Prods

#### Technical Specification:

- Line Input 415 Volts, 50Hz, 3Phase.
- Thyristorized, infinitely variable current control.
- 'F' class insulation.
- Digital Ammeter for current indication.
- Provision for Quick Changing over of Cables from AC to DC.
- Safety Interlocking limit switch for AC/DC.
